

## DYY-6C Electrophoresis Machine

### Specifications

- ❖ Controlled by micro-computer; LCD display
- ❖ Parameters can be adjusted finely during the running
- ❖ Constant voltage, constant current, timer
- ❖ **Voltage range** 6-600V (in 1V steps)
- ❖ **Current range** 4-400mA (in 1mA steps)
- ❖ **Power** 240W
- ❖ **Output terminals** 4 pairs in parallel
- ❖ **Program** 1
- ❖ **Dimensions(mm)** 315\*290\*128
- ❖ **Weight** 5Kg
- ❖ **Applications** DNA, RNA, Protein, Agarose, Isoelectric focusing, 2-dimensional electrophoresis

## Electrophoresis Tank

### DYCZ-24DN

- ❖ **Applications:** For SDS-PAGE, Native PAGE etc

### DYCP-31DN

- ❖ **Applications:** Submarine electrophoresis, for rapid electrophoresis with small quantity samples, DNA or PCR electrophoresis
