Endless I♥ve keeps the new life safe

HF Series

Breath Resuscitation Bag

Standard Configuration:

- ▣ Air bag, aspirate valve, collection air bag, mask, fish mouth shape valve.

Specification:

- ▣ Range of application: HF-I for 0-2 years old infant
HF-II for 2-7 years old child
HF-III for adult
- ▣ Size: Infant (HF-I)
Pediatric (HF-II)
Adult (HF-III)
- ▣ Output pressure: 6Kpa±20% (HF-I/HF-II)
16Kpa~37Kpa (HF-III)
- ▣ Humidity: 150ml±20% (HF-I)
250ml±20% (HF-II)
1200ml±20% (HF-III)
- ▣ Aeration frequency: 28-120 times/min, manual adjusting (HF-I/HF-II)
50 times/min, manual adjusting (HF-III)

Product Packaging:

- ▣ Packing: each unit is packed into one carton
- ▣ Dimension: 26cm x 20cm x 11cm (HF-I/HF-II)
35cm x 25cm x 17cm (HF-III)
- ▣ Gross weight: 0.8kg (HF-I/HF-II)
1kg (HF-III)
