

» S Series Low Pressure Suction

Brief Introduction:

- ❑ Low pressure electro pump, power off without feedback;
- ❑ Be equipped with the liquid bottle;
- ❑ S-1 and S-2 low pressure aspirator: Alarm will occur when the fluid is full of bottle;
- ❑ S-3 has plastic mould with streamlined body; Pressure can be adjusted, 1000ml liquid bottle; Alarm function will occur when the fluid is full of bottle.

Endless I♥ve keeps the new life safe

S Series

Low Pressure Suction

Standard Configuration:

- ▶ Main body(including the electro pump, vacuum meter, filter, Pressure adjusting valve), liquid tube, liquid bottle.

Specification:

- ▶ Power supply: AC220V-230V/50Hz or AC110-120V/50-60Hz
- ▶ Power input: ≤ 15VA
- ▶ Pressure range: 0-22Kpa
- ▶ When the negative pressure is 22Kpa, aspirate speed: ≥ 700ml/min
- ▶ Working noise: ≤ 55dB(A)
- ▶ Capacity of liquid bottle: 1000ml (S-1)
1000ml (S-2)
1000ml (S-3)

Product Packaging:

- ▶ Packing: each unit is packed into one carton
- ▶ Dimension : 38.5cm x 22.5cm x 28cm
- ▶ Gross weight: 4.5kg
